Done Internet

A screenshot of a web browser displaying a web application interface. The browser is Microsoft Internet Explorer. The address bar shows the URL: http://turbostorm.itratingservices.com/windonly/wuinterface.aspx. The page has a menu of buttons at the top, including 'TurboStorm Logo', 'Save the Active Policy', 'Save the Active Policy as a new Policy', 'Open an Existing Policy', 'Create A New Policy', 'User Administration and Configuration', 'Log Out of this Application', 'Return to the Main Menu', and 'Rate the active policy'. Below the menu is a section titled 'Named Insured' with a form containing fields for 'Name of Property', 'Contact First Name', 'Contact Last Name', 'Address', 'City', 'State' (set to 'Florida'), and 'ZIP Code'. There are two 'Wind Only' labels on the page, each with a small 'x' icon to its left. Red arrows point to these 'x' icons and to the 'Log Out of this Application' button. The 'TurboRater' logo is at the bottom of the page.
